Training and Placement Cell Management System

1. INTRODUCTION

1.1 System Overview

Welcome to the Training and Placement Cell Management System. This software is designed to streamline and automate the placement and internship activities of the institution. It acts as a centralized bridge between the students and the Training & Placement (T&P) Cell administrators.

1.2 Who is this manual for?

This manual covers instructions for two primary types of users:

- **Students:** To manage their academic profiles, upload internship certificates, view active placement drives, apply for roles, and track their selection status.
- **Administrators (T&P Cell):** To manage academic master data, oversee student approvals, post notifications, coordinate placement drives with companies, and generate reports.

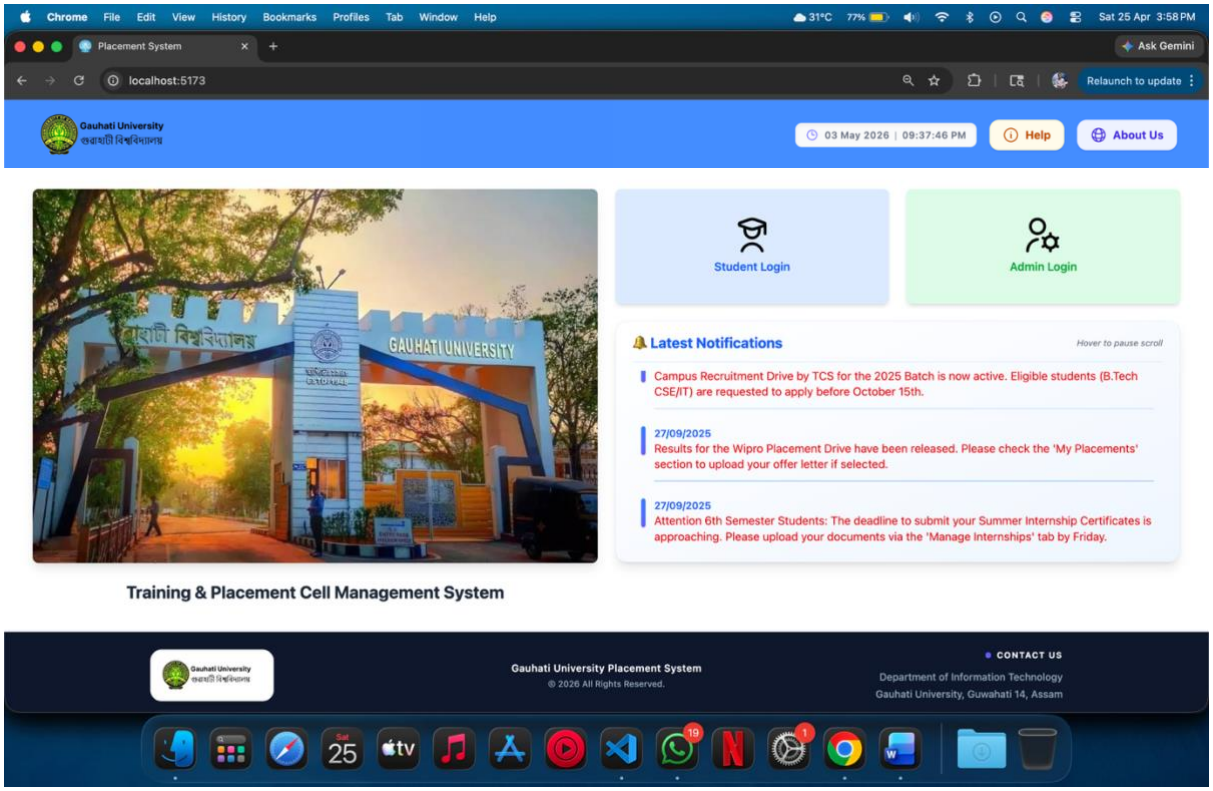

Figure 1. Homepage

2. GETTING STARTED

2.1 Navigating the Homepage

When you first access the Training & Placement Cell Management System, you will arrive at the public Homepage. This is the starting point for all users.

- **Announcements & Notifications:** The right side of the homepage displays a scrolling ticker of the latest public notifications and updates posted by the T&P Cell.
- **Navigation Bar:** At the top of the screen, you will find the Gauhati University logo, the current date and time, and a link to the **About Us** page.
- **Main Panel:** In the main area, you will find two distinct access portals: **Student Login** and **Admin Login**.

2.2 Login & Account Status

To access your dashboard, you must go through the login page.

1. On the Homepage, click on either the **Student Login** or **Admin Login** card. Both will direct you to the main secure login screen.
2. Enter your registered **Username** and **Password**. *(You can click the eye icon to show/hide your password).*
3. Click the **Login** button.

⚠️ Important Note on Account Approval: When you attempt to log in, the system checks your approval status:

- **Pending:** If you see *"Your account is not verified yet"*, you must wait for the T&P Cell to approve your registration.
- **Rejected:** If you see *"Your account has been rejected"*, you will need to contact the admin for further details.
- **Approved:** If verified, the system will automatically route you to your respective Student or Admin Dashboard.

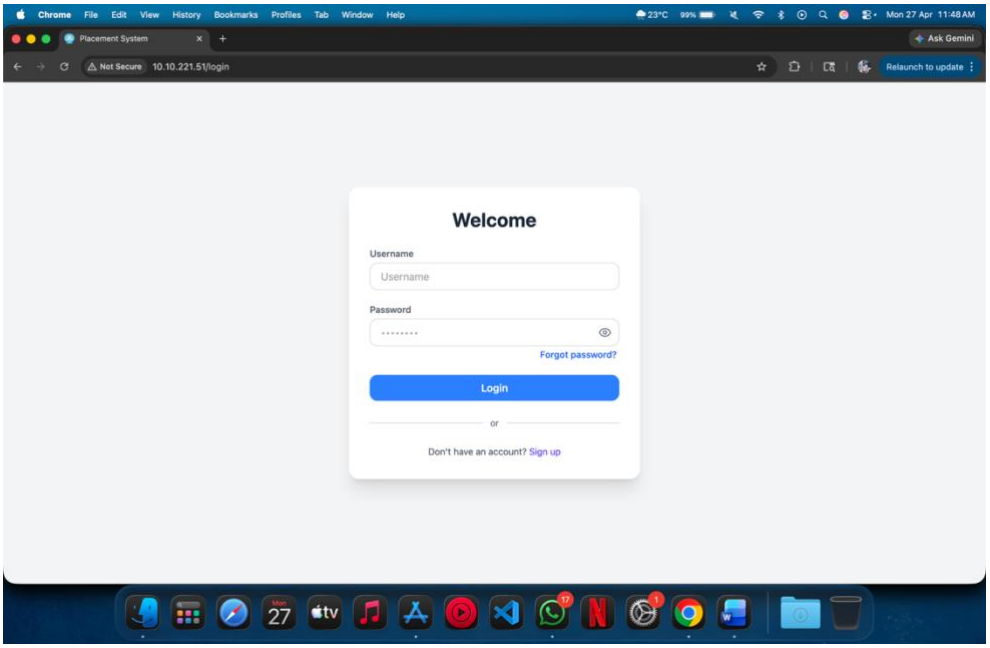

Figure 2. Login Page

2.3 Registration (For New Users)

If you do not have an account yet, you must register. The registration page is accessed through the Login screen.

1. From the Login page, locate and click the **"Sign up"** link at the very bottom.
2. At the top of the registration form, use the toggle switch to select your **User Type** (Choose **Admin** or **Student**).
3. Create a unique **Username**.
4. Create a secure **Password**.
5. Click the **Register** button.
6. After a successful registration, you will be redirected back to the Login page.

⚠️ **Important:** Upon registration, your account is put into a 'Pending' state. You cannot log in until an administrator manually verifies and enables your account.

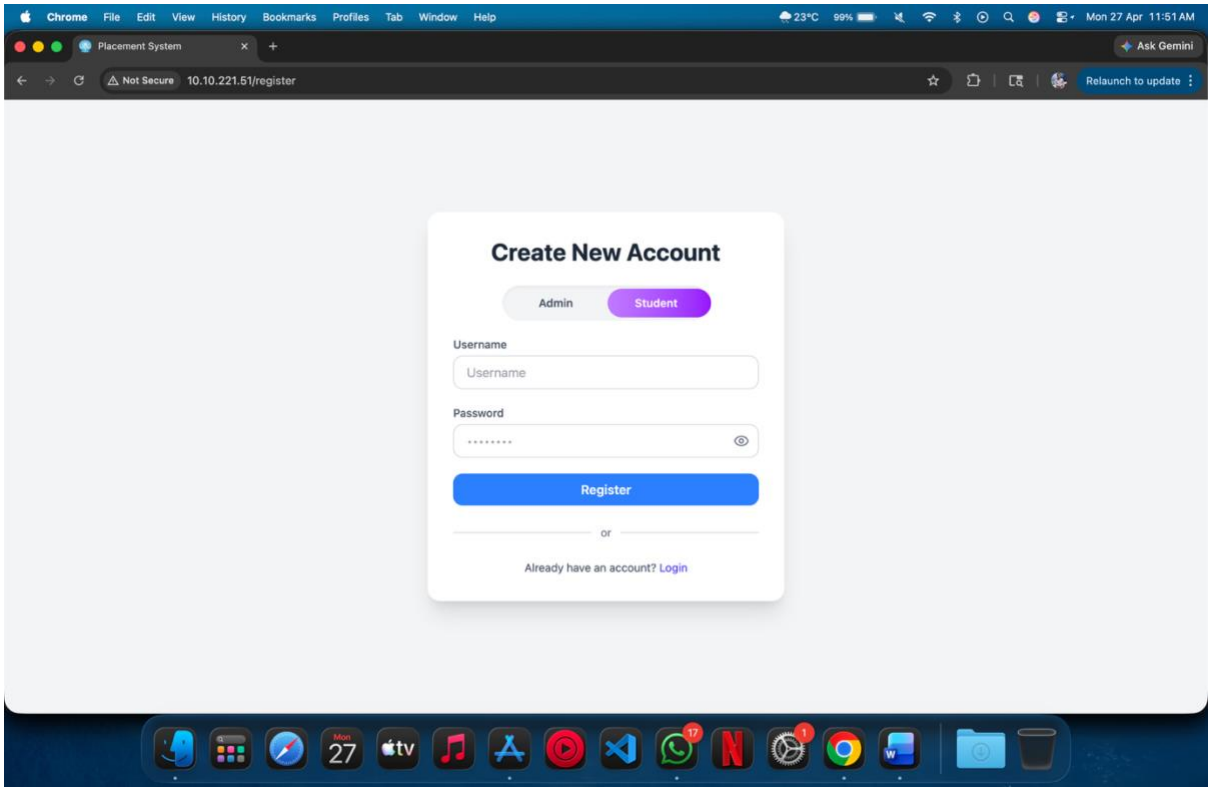

Figure 3. Register Page

2.4 Forgot Password & Account Recovery

If you forget your password, you can reset it directly from the login screen.

1. On the Login page, click the **"Forgot password?"** link located just below the password field.
2. Select your account type (Admin or Student).
3. **Identity Verification:** To securely reset your password, you must enter details that exactly match your system profile. You will be asked for your:

- Username
- Registered Mobile Number
- Registered Email Address
- Date of Birth (DOB)

4. Click **Verify**.
5. If the details are correct, the system will allow you to set a **New Password** and return to the login screen.

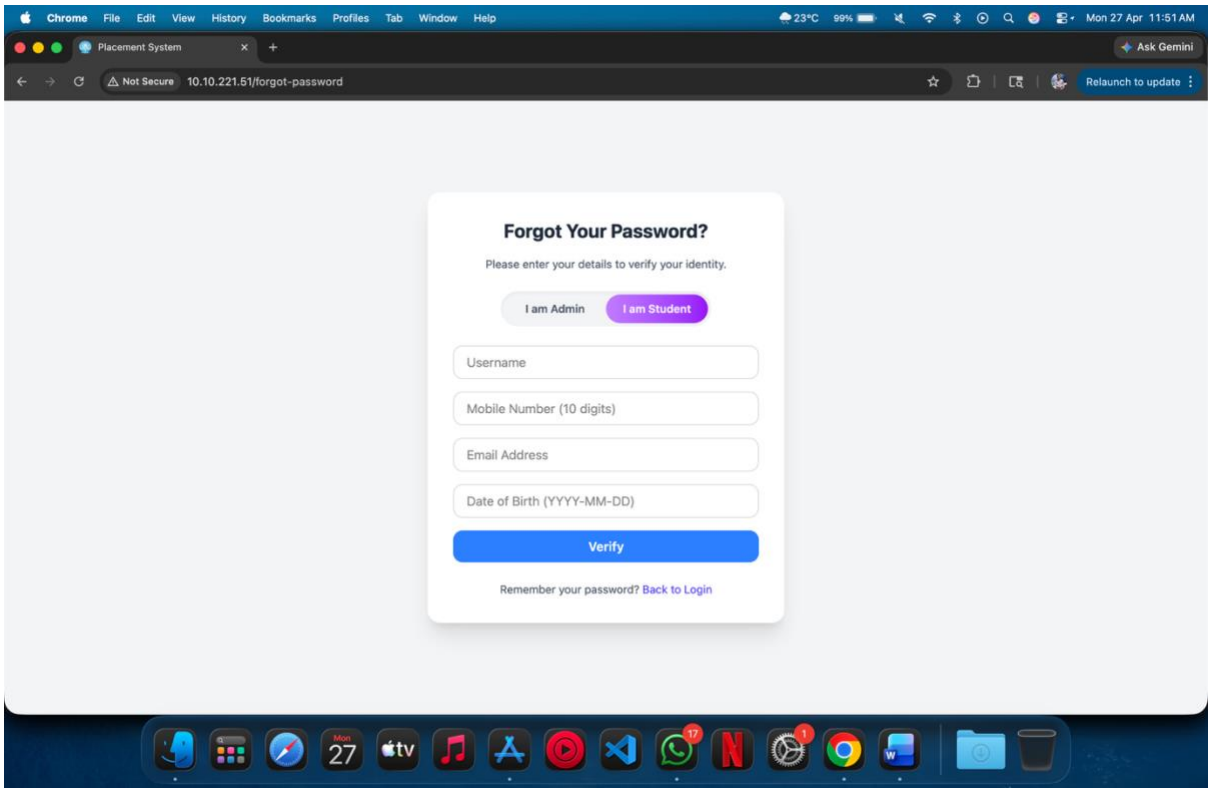

Figure 4. Forgot Password Page

3. STUDENT GUIDE

This section covers how to navigate your dashboard, update your profile, submit internship certificates, and manage placement applications.

3.1 Student Dashboard Overview

After logging in, you arrive at your Student Dashboard. The layout is designed to give you everything on a single page.

- **Top Header:** Contains the Gauhati University logo, the current Date & Time, and a red **Logout** button.
- **Welcome Area & Settings:** At the top right of your welcome message, there is a **Settings Gear Icon**. Clicking this gear opens a dropdown allowing you to securely **Change Password**.
- **Profile & Widgets:** The main screen displays your personal Profile card. Below your profile, the screen is split into two main action areas: the **Internships Widget** and the **Placements Widget**. You will use these widgets to navigate the system.

⚠️ **The "Frozen" Status Banner:** If the T&P Cell finalizes your data, a yellow warning banner will appear at the top of your dashboard stating: *"Your profile is frozen. You can view your historical data but cannot edit your profile or apply for new drives."*

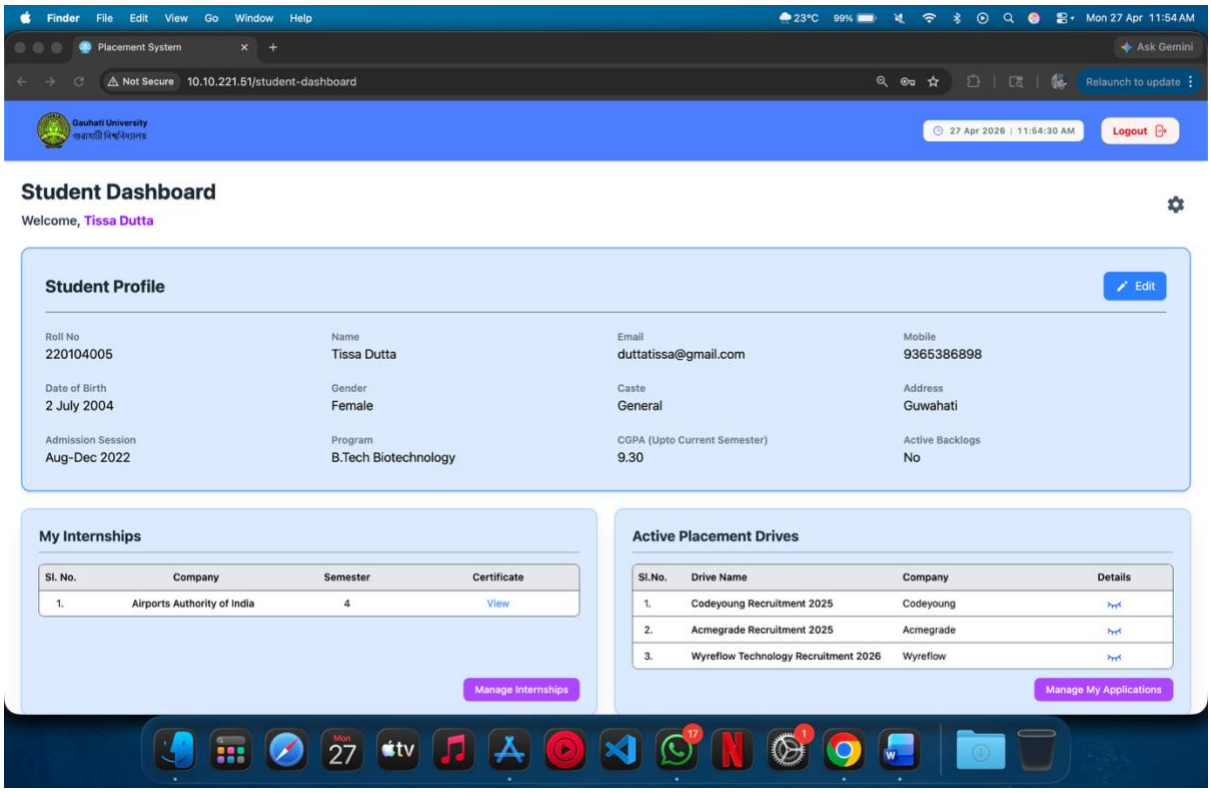

Figure 5. Student Dashboard

3.2 Managing Your Profile Details

Your academic and personal details dictate your eligibility for placement drives.

1. **First Login:** If this is your very first time logging in, the dashboard will display a blank registration form. You must fill this out completely and click Submit.
2. **Viewing Details:** Once saved, your details appear in the **Profile** section on the main dashboard.
3. **Editing:** To update your details, click the Edit button within your Profile section.

⚠ If your profile is marked as **Locked** or **Frozen** by the Admin, the edit options will be disabled, and you must contact the T&P Cell for corrections.

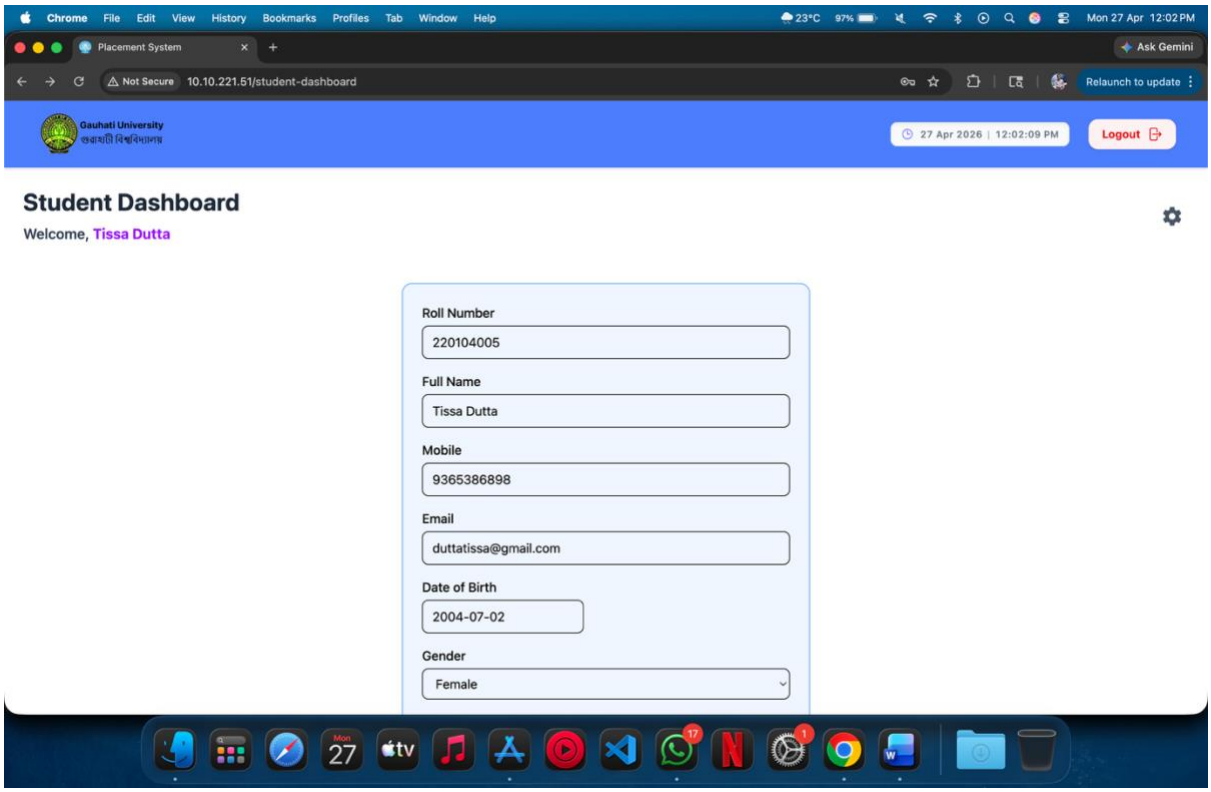

Figure 6. Student Profile Edit Page

3.3 Managing Internships

Students must upload completion certificates for mandatory internships.

1. From your main dashboard, locate the **Internships Widget** and click on it to enter the "Manage Internships" page.
2. **Adding an Internship:** Click the button to add a new record. You will select the Company, Academic Session, and Semester, and upload your Certificate file.
3. **Navigation:** To return home at any point, click the blue **"Back to Dashboard"** button located at the top right of the page.
4. *Note:* If your profile is frozen, a yellow banner will remind you that you cannot add, edit, or delete internship records.

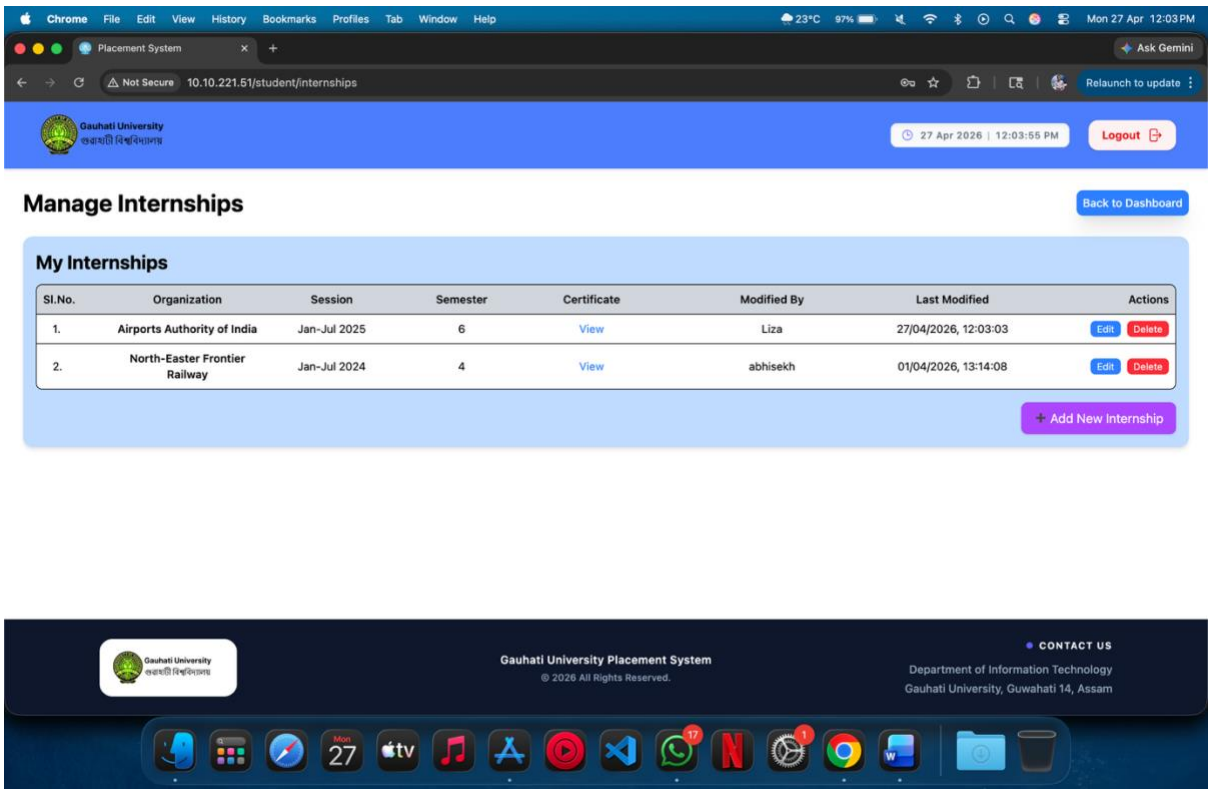

Figure 7. Student Internship Page

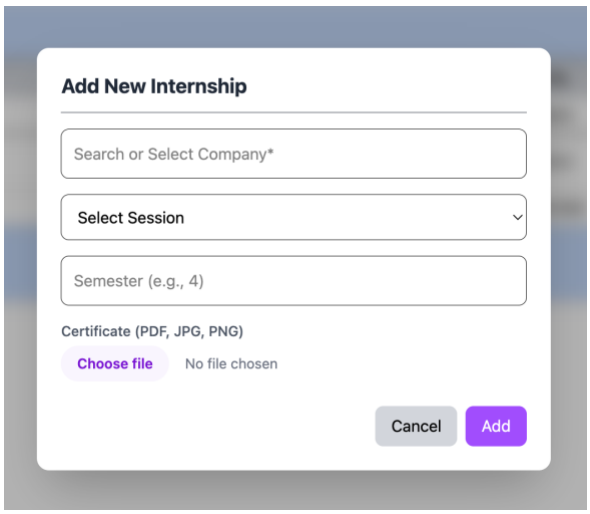

Figure 8. Add Internship Modal

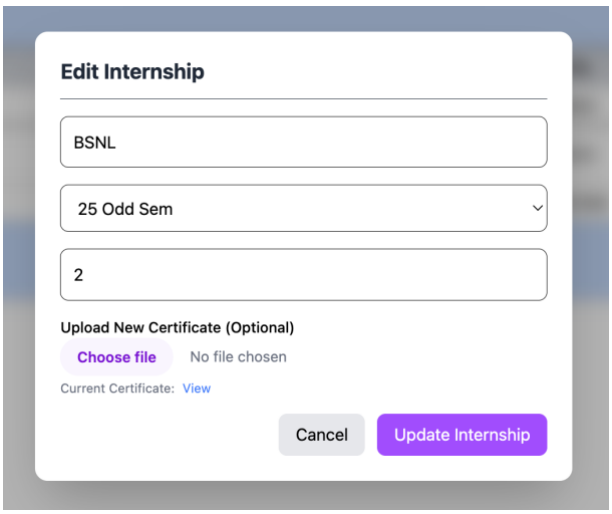

Figure 9. Edit Internship Modal

3.4 Placement Drives (Viewing & Applying)

Discover and apply for active campus recruitment drives.

1. From your main dashboard, navigate to the active drives using the **Placements Widget**.
2. You will see a list of currently active drives tailored to your academic session.
3. Click on a specific drive to open its details page. Here, you can read the description, check the CTC, and download the official **Job Description (JD) file**.

4. If you have applied in the drive, please kindly click "**Click Here if Applied"**. That will save your response in the main database.

⚠️ *Note:* You cannot apply for new drives if your profile status is set to Frozen.

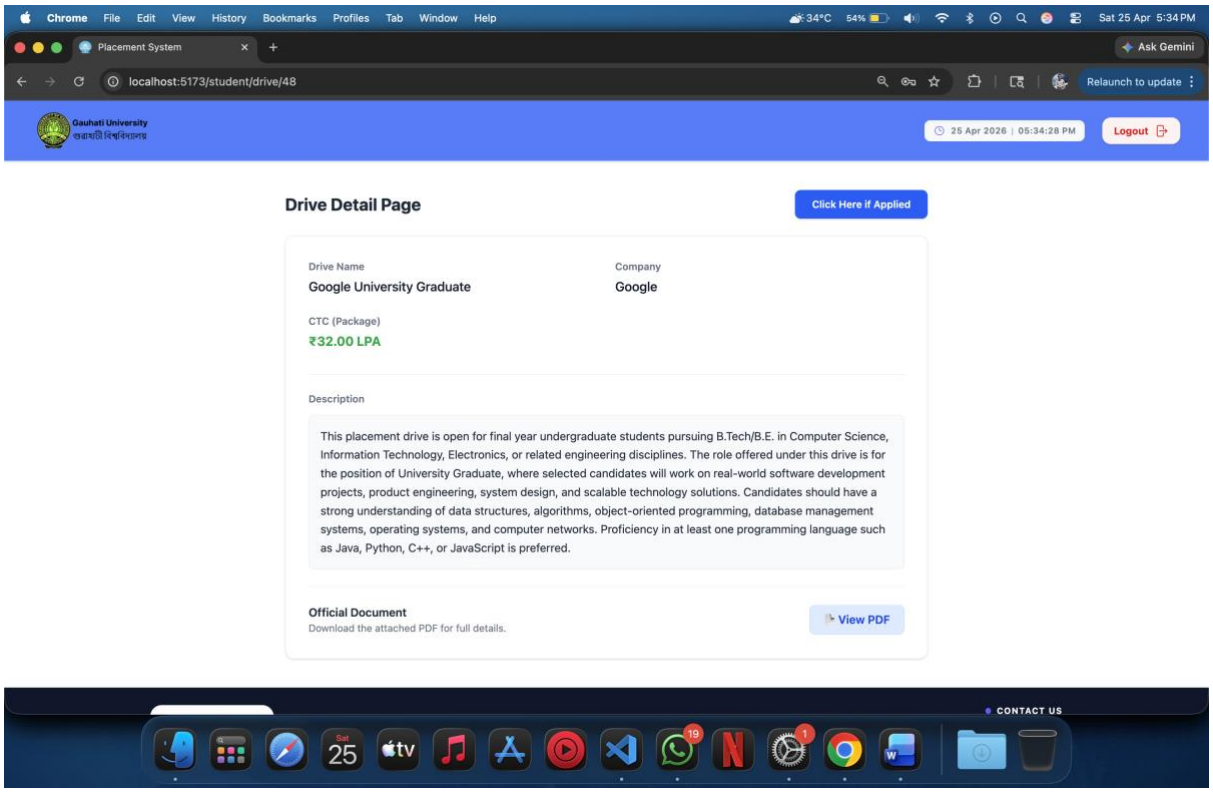

Figure 10. Drive Details Page

3.5 My Placements (Tracking Application Status)

Track the final outcome of the drives you have applied to.

1. From your main dashboard, navigate to your applications (typically via the Placements Widget) to reach the **"My Placement Applications"** page.
2. You will see a table listing every company you applied to.
3. **Selection Status:** The status column will update to show **Pending**, **Selected**, or **Not Selected** (No).
4. **Offer Details:** If you are "Selected," please update your row with your final CTC, Job Role, Place of posting, and Offer Letter. If not selected, please update the row accordingly.

⚠️ *Note:* Leaving the status as "Pending" will cause your profile to not get frozen by the admin leading to not getting a clearance certificate from Training & Placement Cell.

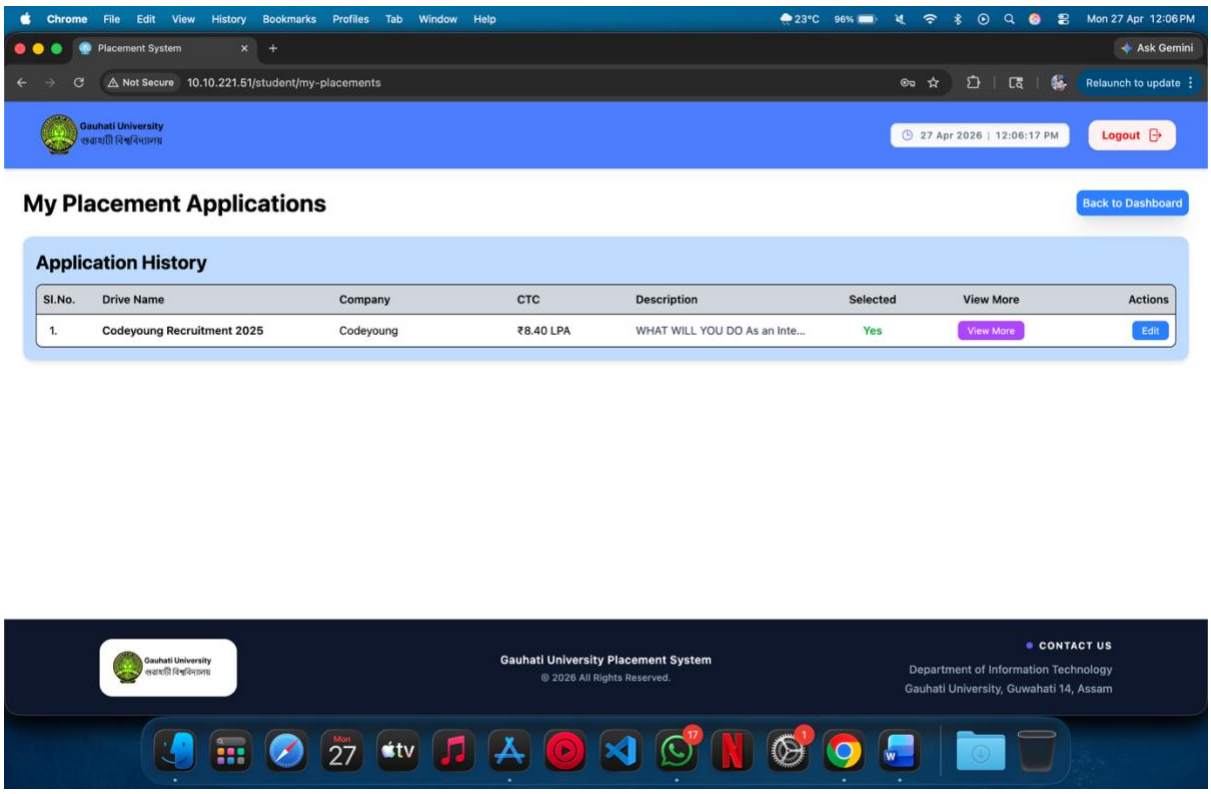

Figure 11. My Placement Application Page

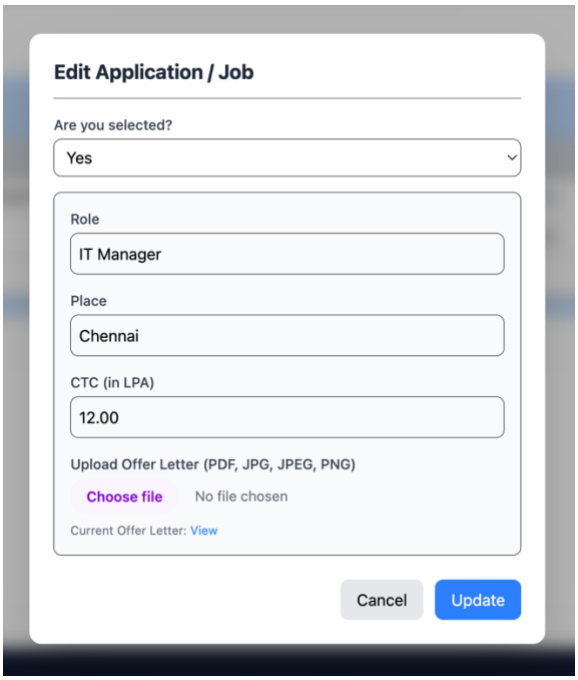

Figure 12. Edit Application Modal

4. ADMINISTRATOR GUIDE

This section is for T&P Cell Administrators. It covers how to manage the system's core data, process student applications, coordinate placement drives, and generate reports.

4.1 Admin Dashboard Overview

When an administrator logs in, they are directed to the **Admin Dashboard**. The interface is designed as a centralized control hub.

- **First-Time Login:** If this is your very first time logging in, you will be forced to fill out a full-screen **Account Details Form** to set up your admin profile.
- **Top Header:** Features the Gauhati University logo, a real-time clock, and a **Logout** button.
- **Settings Gear (Top Right):** Clicking the gear icon opens a dropdown with three critical options:
    1. **Change Password**
    2. **Account Details** (To update your admin profile)
    3. **Incomplete Registrations**
- **Main Navigation Grid:** The center of the dashboard contains a grid of 12 distinct functional cards (e.g., Academic Year, Company, Placement Drive, Students). You will click these to navigate the system.
- **Pending Requests (Bottom):** Below the grid, you will see a table displaying new student and admin registrations awaiting your approval.

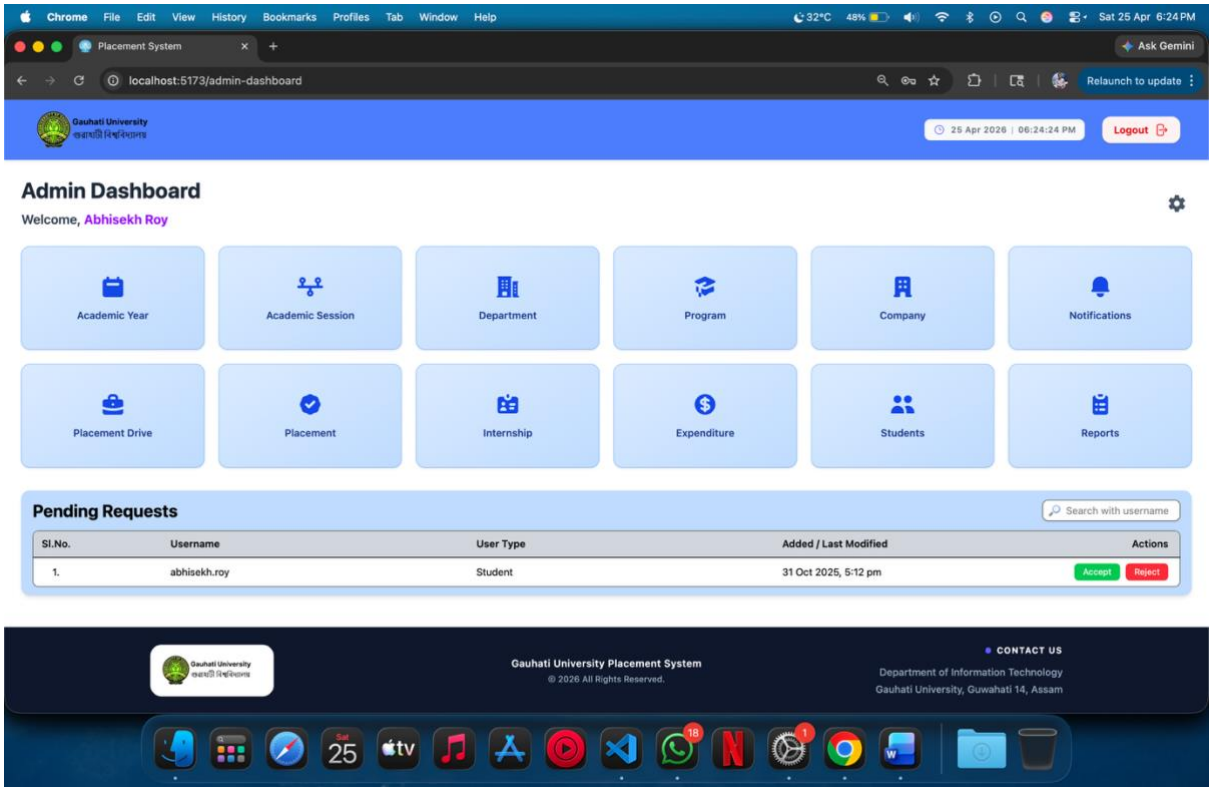

Figure 13. Admin Dashboard

4.2 Student Management

Managing student profiles and access is one of the primary duties of the admin.

Approving New Students (Pending Requests):

1. On your main dashboard, scroll down below the grid to the **Pending Requests** table.
2. Here, you will see all new student sign-ups. You can review their details and choose to either **Approve** or **Reject** them. Once approved, the student can log in.

Handling Incomplete Registrations:

1. Click the **Settings Gear Icon** at the top right of your dashboard.
2. Select **Incomplete Registrations** from the dropdown menu. This page allows you to view students who started signing up but are missing critical profile data. Without the critical data they cannot reset their password if they forget it. Using this page, you can set a temporary password for them so that login and reset their own password.

Managing Approved Students:

1. From the main dashboard grid, click the **Students** card to view the master directory of all approved students.
2. On this page, you can perform the following key functions:

   - **View & Search Profiles:** Browse the complete list of students or search for specific individuals to view their full details, including Roll Number, Program, Session, CGPA, and Active Backlogs.
   - **Edit Student Details:** If a student has made an error in their profile (e.g., incorrect CGPA or spelling mistake), you can manually edit and correct their data on their behalf.
   - **Lock Profile:** You can toggle the **Lock** status on a student's profile.
     <u>*What it does:*</u> Prevents the student from making any further changes to their personal and academic details from their dashboard. This is crucial for maintaining data integrity once the T&P cell has verified their CGPA and backlogs.
   - **Freeze Profile:** You can toggle the **Freeze** status on a student's profile.
     <u>*What it does:*</u> *This completely restricts the student's system activity. A frozen student cannot apply for any new placement drives, nor can they add, edit, or delete internship records. This function is typically used once a student has successfully secured a placement or if they are temporarily suspended from placement activities.*
   - **Delete Student:** If a student profile was approved by mistake or needs to be entirely removed from the system, you can use the delete action to erase their record.

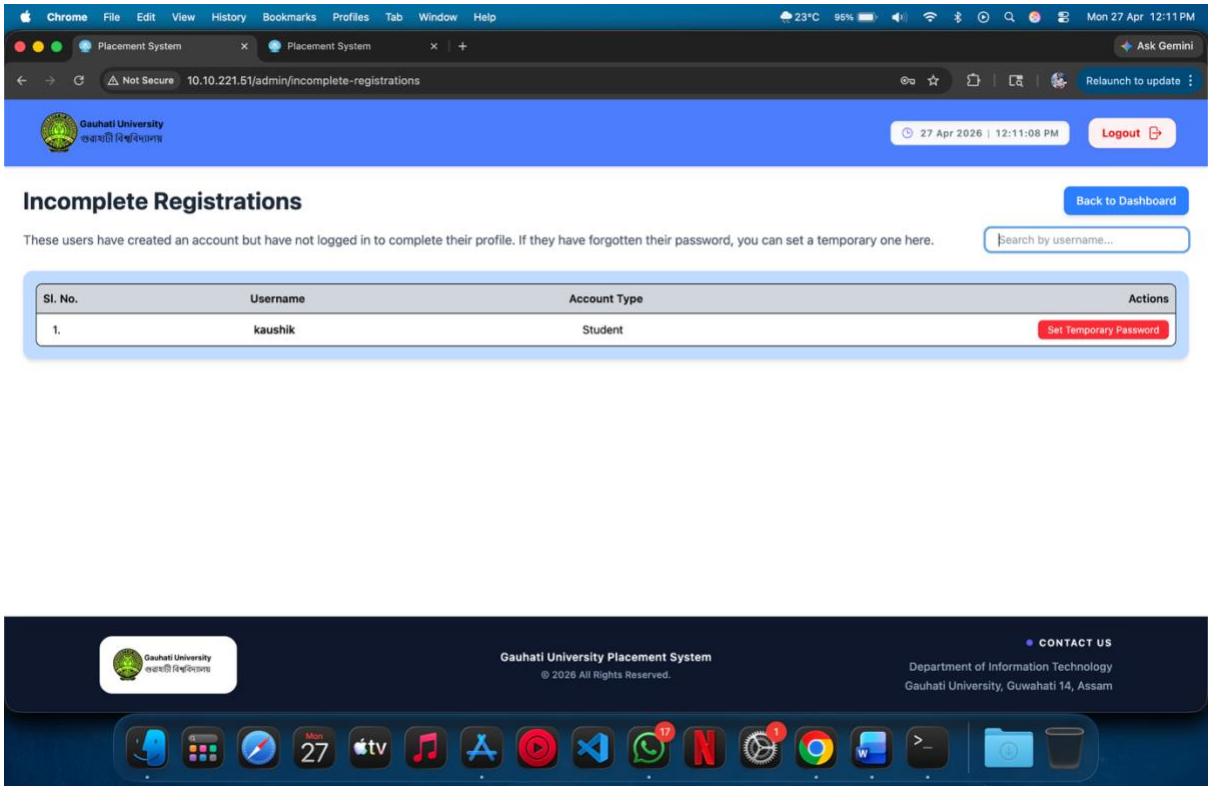

Figure 14. Incomplete Registrations Page

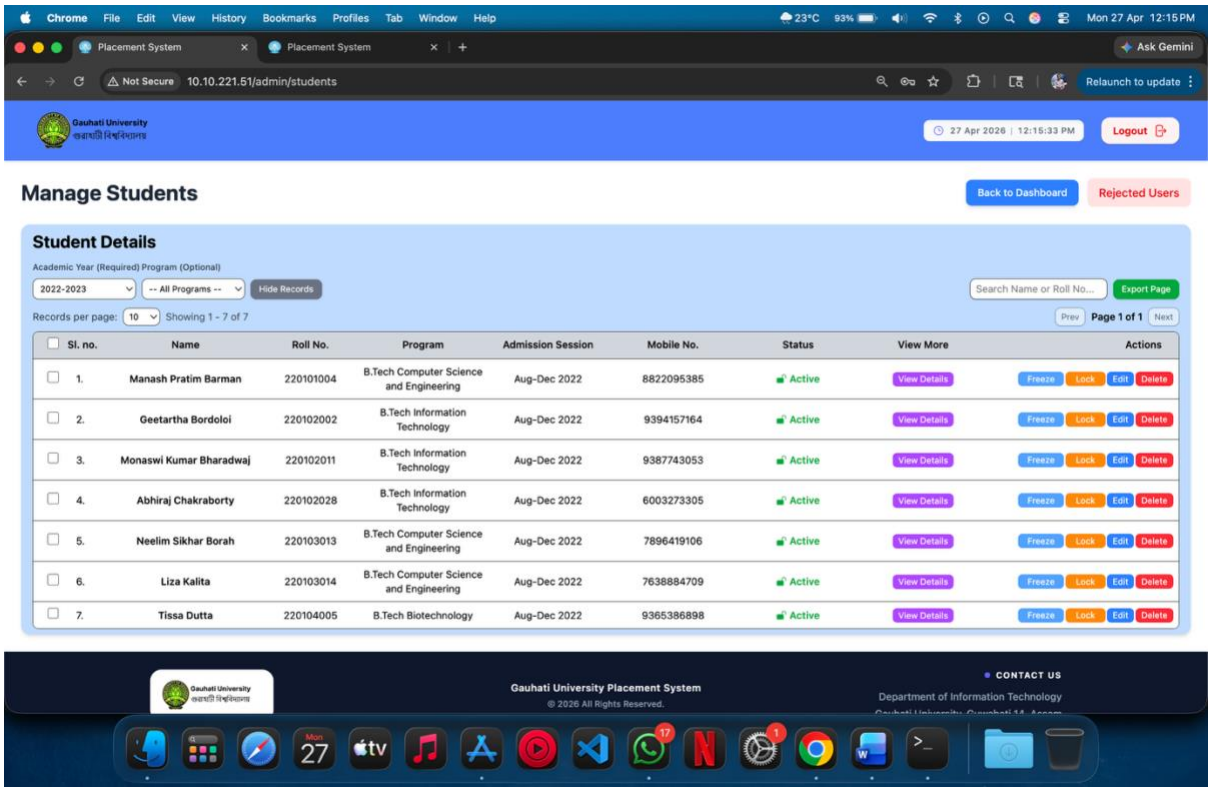

Figure 15. Student Management Page

4.3 Master Data Management

Before utilizing the system for placements, the foundational academic structure must be defined. This is managed using the first four cards on your dashboard grid. Each of these modules features a data table with an "Add" button at the top and specific "Edit/Delete" actions for each row.

- **Academic Year:**
  - **Navigate:** Click the **Academic Year** card.
  - **Add:** Click "Add Academic Year" to input a new year (e.g., "2024-2025").
  - **Edit/Delete:** Use the action icons next to an existing year to correct typos or remove unused years.
- **Academic Session:**
  - **Navigate:** Click the **Academic Session** card.
  - **Add:** Sessions are linked to Academic Years. When adding a new session, you will select the parent Academic Year from a dropdown, name the session, and set its Active status.
  - **Edit:** You can edit a session to mark it as "Inactive" once the academic period is over.
- **Department:**
  - **Navigate:** Click the **Department** card.
  - **Add/Edit:** Manage the high-level departments (e.g., "Computer Science", "Biotechnology") using the standard Add and Edit form buttons.
- **Program:**
  - **Navigate:** Click the **Program** card.
  - **Add:** Programs are linked to Departments. Click Add, select the parent Department, and input the specific degree program name (e.g., "B.Tech in Biotechnology").
  - **Edit/Delete:** Use the table action icons to modify program names if curriculum titles change.

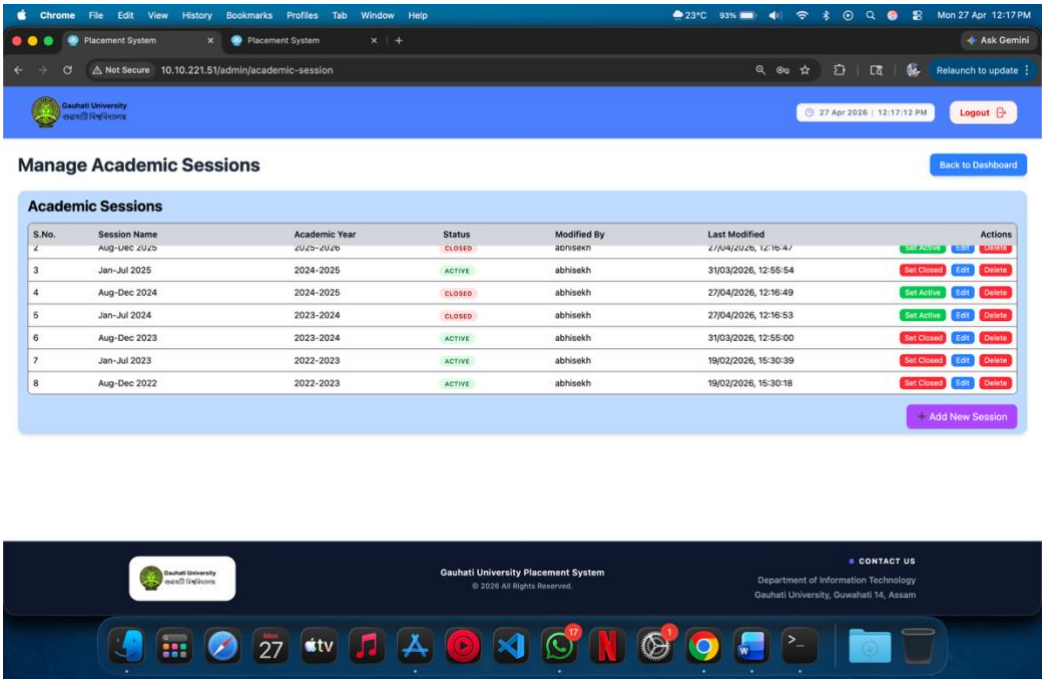

Figure 16. Academic Session Page. Similar pages for Academic Year, Department & Program.

4.4 Company Management

To facilitate placement drives, you must maintain a detailed database of visiting companies. This is split into Company Types and Company Profiles.

- **Company Type Management:**
  - Before adding a company, ensure its category exists. Click the **Company Type** button to navigate to it to define sectors like "IT", "Core", "Consulting", or "Finance".
- **Adding & Managing Companies:**
  - Click the **Company** card from the main dashboard grid.
  - **To Add:** Click the "Add Company" button. You will need to fill out:
    - Company Name & Description
    - HR Name & Contact Details (Mobile, Email)
    - Select the appropriate Company Type from the dropdown.
  - **To Edit:** If a company's HR contact changes or their description needs an update, click the **Edit icon** on their row in the table to modify their profile.
  - **To Delete:** If a company profile was created in error, use the Delete icon to remove it.

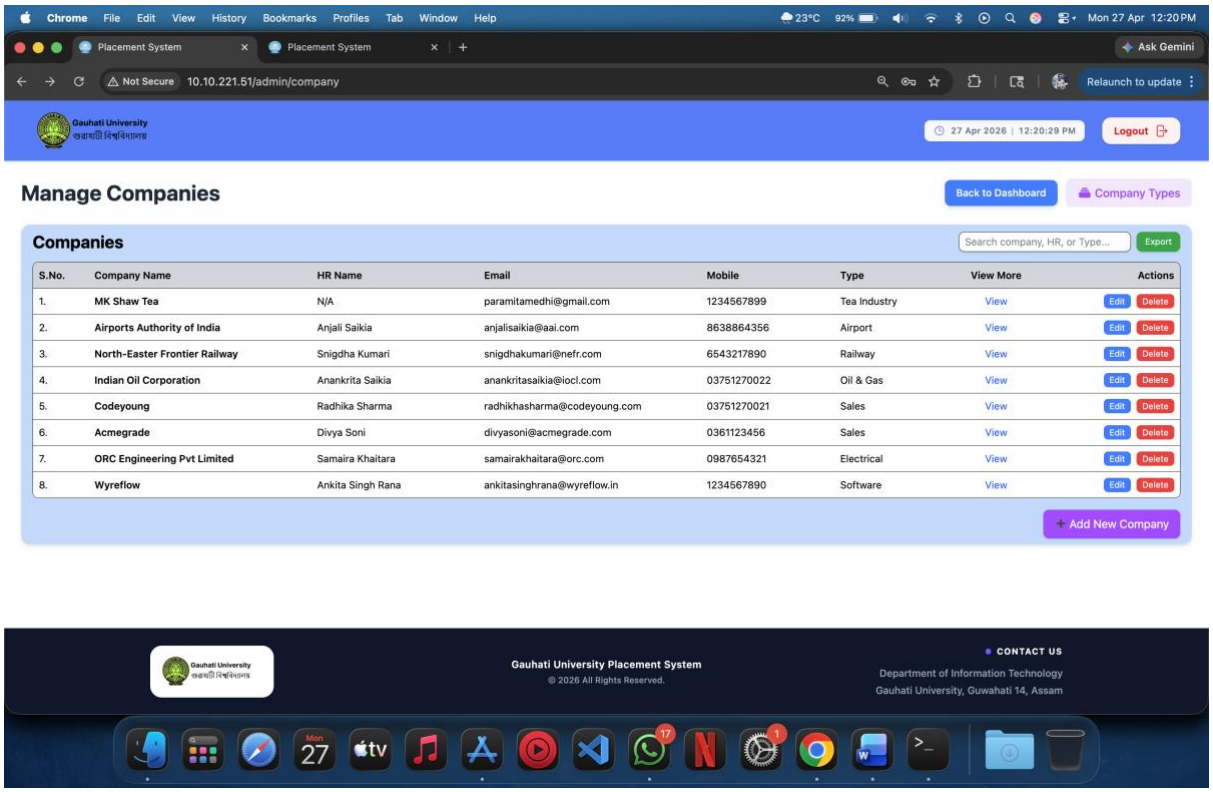

Figure 17. Company Management Page. Similar page for Company Types.

4.5 Placement Operations

This is the core functional area for coordinating recruitment. It is split into two distinct cards: **Placement Drive** (creating the event) and **Placement** (updating student results).

1. Managing Placement Drives:

- Click the **Placement Drive** card.
- **Adding a Drive:** Click "Add Drive". You must select the target **Academic Session** and the visiting **Company**. You will also input the Drive Name, Description, and the offered **CTC**.
- **JD Upload:** Critically, you can upload a PDF/Document of the **Job Description (JD)**. This file becomes downloadable for students on their dashboard.
- **Editing & Status:** You can edit a drive to upload a revised JD file or update the CTC. You can also toggle the drive's status between **Active** and **Inactive** (closing it to new student applications).

2. Updating Student Placement Statuses:

- Once students have applied and interviews are concluded, click the **Placement** card.
- Select the specific Placement Drive from the list to view all students who applied.
- **Updating Status:** In the action column, click to edit a student's application. Change their status from **Pending** to **Selected** or **Not Selected**.
- **Finalizing Offers:** For students marked as "Selected", the system will reveal additional fields. You must input their final **CTC**, **Job Role**, and **Posting Place**. You will also be prompted to securely upload their individual **Offer Letter** file, which the student can then download from their own portal.

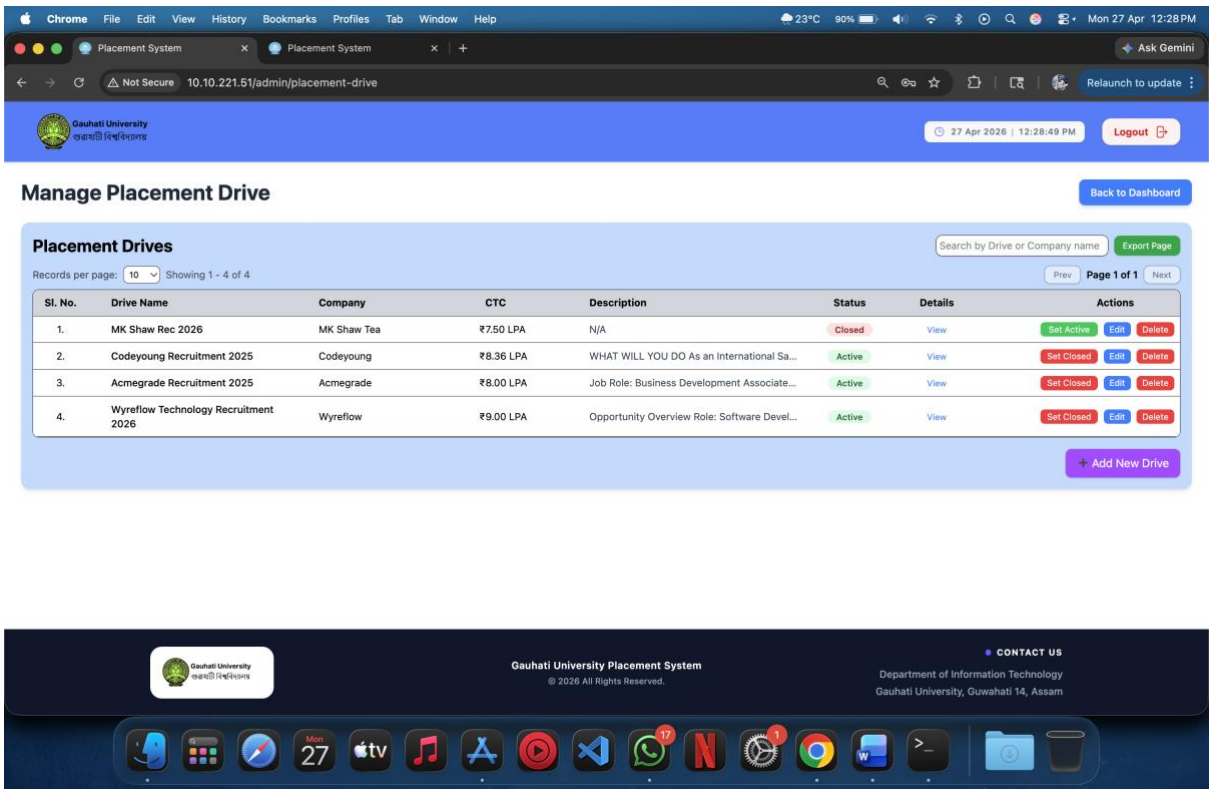

Figure 18. Placement Drive Management Page.

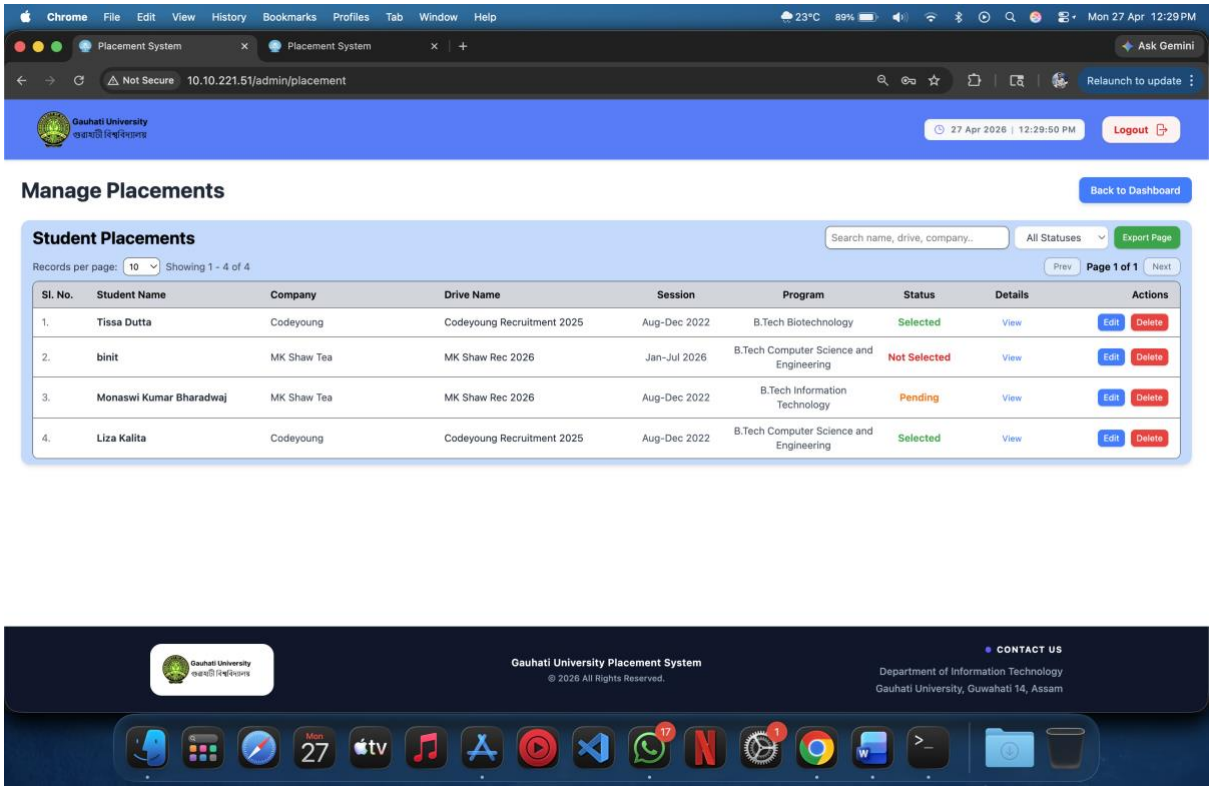

Figure 19. Student Placement Status Management Page.

4.6 Internship Management

This module allows you to track mandatory internships submitted by students and define the academic rules for those internships.

- **Tracking Student Internships:**
  - Click the **Internship** card from the dashboard grid.
  - Here, you will see a master table of all internships submitted by students across the institution.
  - You can view the student's name, the Company, the Semester, and click to view/download the **Internship Certificate** they uploaded to verify its authenticity.
  - You can also add / edit internships on students' behalf if you wish to through the Add / Edit buttons.
- **Setting Internship Requirements:**
  - Click the **Internship Requirements** card.
  - **Add/Edit Rules:** This section tells the system how many internships are mandatory. Click Add, select a specific **Program** and **Semester**, and define the "Internship Count" (e.g., B.Tech Computer Science and Engineering Semester 4 requires 2 internships).
  - **Edit/Delete:** You can adjust these counts as curriculum requirements change using the action icons.

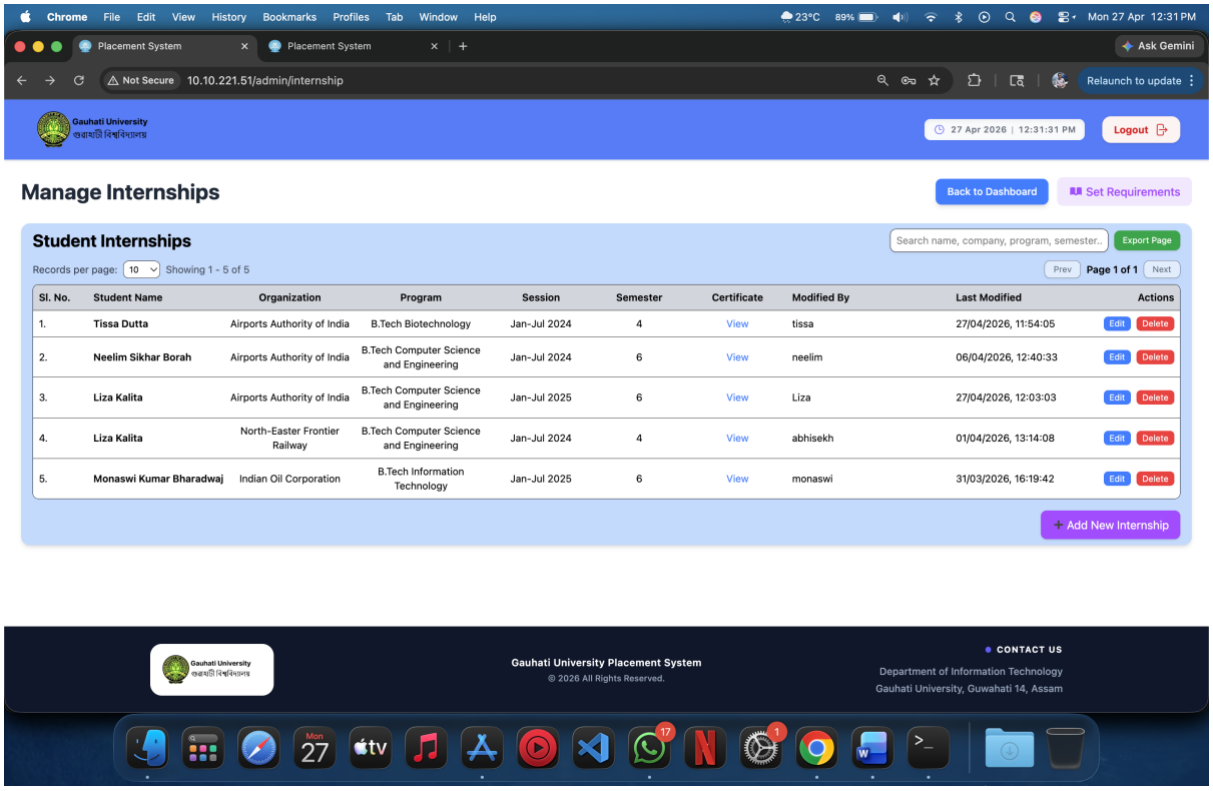

Figure 20. Student Internship Management Page.

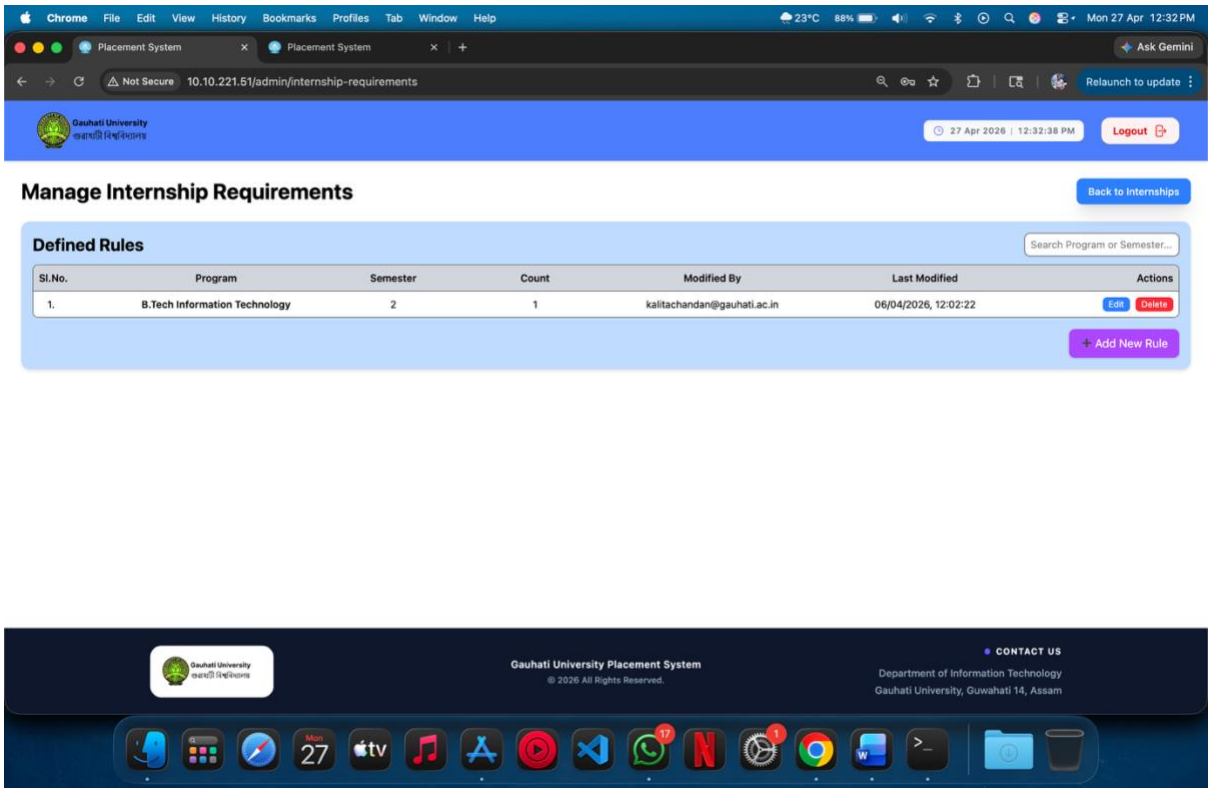

Figure 21. Internship Requirement Management Page.

4.7 System Operations

Use these modules to communicate with students and track internal T&P Cell finances.

- **Posting Notifications:**
  - Click the **Notifications** card.
  - **Add:** Click to create a new announcement. Select the start and end Dates and input the Notification Text. Once saved, this message immediately begins and ends scrolling on the public Homepage ticker according to the set dates.
  - **Edit/Delete:** If an announcement has a typo or is no longer relevant, use the Edit or Delete icons in the table to update or remove it from the homepage ticker.
- **Managing Expenditure:**
  - Click the **Expenditure** card to track costs incurred during placement drives (e.g., hospitality, logistics).
  - **Add Expense:** Click to add a record. Select the Academic Session, define what the expense was "On", enter the Amount, and crucially, **upload the Bill/Receipt File** for auditing.
  - **Manage:** Use the table to view total session expenditures, edit entries, or download previously uploaded bills.

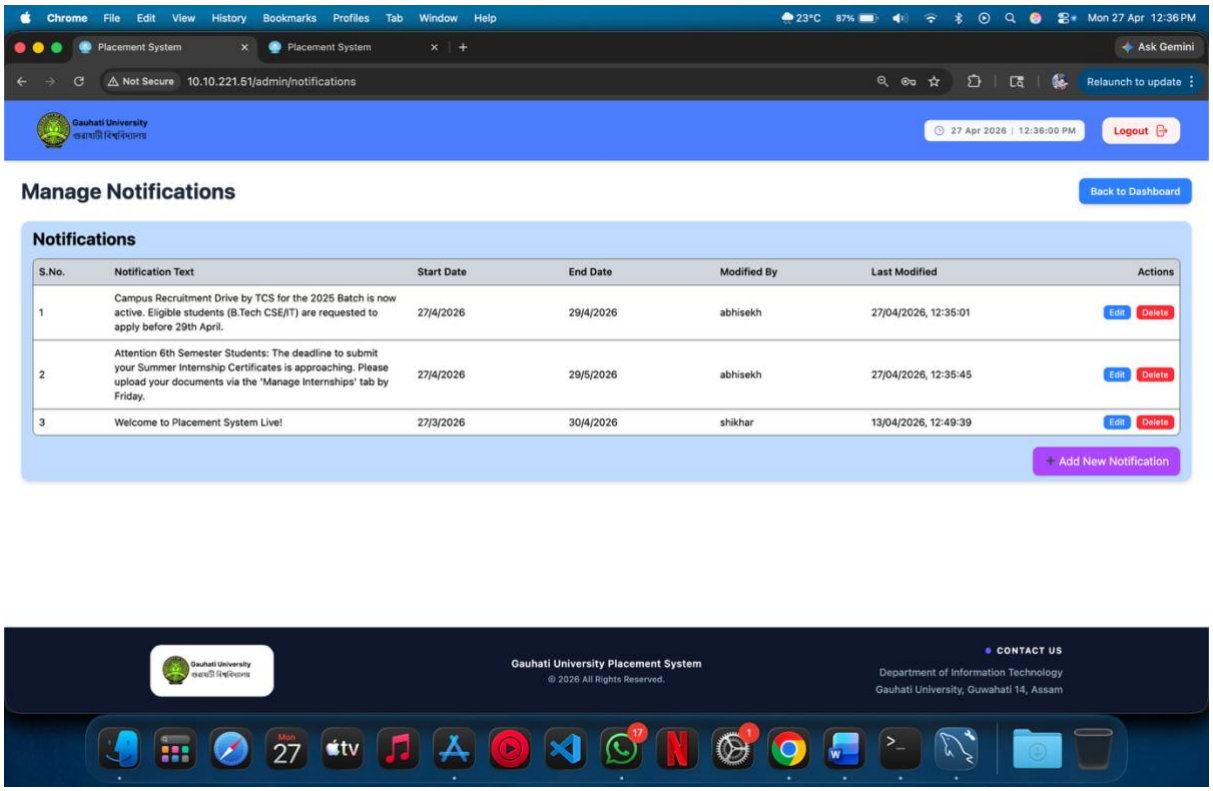

Figure 21. Internship Requirement Management Page.

4.8 Analytics & Reports

Generate actionable insights and view aggregated data regarding system activity.

1. Click the **Reports** card on the dashboard grid.

2. The Reports module provides a dedicated interface with five specific tabular reports. You can select between:
    - **Student Placement Report:** Track the broader placement application data viewing the number of applied and selected counts of students.
    - **Placement Drive Report:** Analyze data drive-by-drive to see application numbers and selection rates per company.
    - **Selected Student Report:** Filter and view the specific list of students who have successfully secured placements and received offers.
    - **Expenditure Report:** View aggregated financial data and placement cell costs per academic session.
    - **Student Internship Report:** Track which students have submitted certificates and met their academic internship requirements.
3. Use the on-screen filters (such as selecting specific Academic Sessions or Programs) to narrow down the data presented in these tables.
